PENSACOLA, FLORIDA, FRIDAY MORNING, AUGUST 11, 1905.

PRICE, 5 CENTS.

PRESIDENT ROOSEVELT TO MINERS

Chief Executive Delivers Address Before Catholic Total Abstinence Union.

GIVEN AN OVATION

City and County Took a Holiday and Turned Out En Masse.

INTRODUCED BY PRESIDENT MITCHELL, OF UNITED MINE WORKERS, WHO SPOKE FLATTERINGLY OF MR. ROOSEVELT'S RELATION TO WORKINGMEN--ADDRESS IN FULL.

By Associated Press.

Willesbarre, Pa., Aug. 10.—President Roosevelt to-day delivered an address here before the anthracite coal miners and members of the Catholic Total Abstinence Union. The journey from Oyster Bay, which was uneventful, was marked only by a short stop at Easton, Penn. He arrived here just before three o'clock and was greeted by thousands. The entire city and surrounding country seemed to have made a holiday and came to see and hear the president.

President John Mitchell, of the United Mine Workers of America, introduced the president in a somewhat lengthy address, in which he considered the advantages of trade unionism and spoke flatteringly of the president's relation to workingmen.

President Roosevelt spoke as follows:

Mr. Roosevelt's Address. I am particularly glad to speak to the audience of miners and their wives and children, and especially to speak under the auspices of this great temperance society. In our country the happiness of all of our people depends most of all upon the welfare of the wage-workers and the welfare of the farmer. If we can secure the welfare of these two classes we can be reasonably certain that the community as a whole will prosper. And we must never forget that the chief factor in securing the welfare alike of wage-worker and farmer, as of everybody else, must be the man himself.

The only effective way to help anybody is to help him help himself. There are exceptional times when any one of us needs outside help, and then it should be given freely; but normally each one of us must depend upon his own exertions for his own success. Something can be done by wise legislation of the laws; that is, something can be done by our action taken in our collective capacity through the state and the nation.

Something more can be done by combination and organization among ourselves in our private capacities as citizens, so long as this combination or organization is managed with wisdom and integrity, with insistence upon the rights of those benefited and yet with just regard for the rights of others.

But in the last analysis the factor most influential in determining any man's success must be the sum of that man's own qualities, of his knowledge, honesty, thrift, and courage. Whatever tends to increase his self-respect, whatever tends to help him overcome the temptations with which all of us are surrounded, is of benefit not only to him but to the whole community.

Should Be Temperate. No one society can do more to help the wage-worker than such a temperance society as that which I am now addressing. It is of incalculable consequence to the man himself that he should be sober and temperate, and it

PRELATE'S FUNERAL WILL BE PRIVATE

CLOTHING FIRED BY STEPPING ON MATCH

Mrs. J. G. Shuttleworth Painfully Burned by an Unusual Accident.

Mrs. J. G. Shuttleworth was very painfully burned yesterday at the residence of her father, Capt. Dixon Reed on West Intendencia street.

She lighted the gas stove and dropped a match upon which she unconsciously stepped and stood over it until her clothes were ablaze.

She held her four-months-old infant in her arms, but laid it down and rushing to the faucet bent over and turned the water on herself.

At that moment the colored cook threw a quilt over her and between them the flames were subdued, but not until her clothing was almost destroyed and her side, breast, shoulder, side of her face and neck had been scorched.

Happily the physician pronounced the burns not dangerous and though her injuries are very painful they might have been so much worse, and Mrs. Shuttleworth's escape was so narrow as was that of her child, that her friends have much to be thankful for.

The lady's escape was due to her own presence of mind and to the fact that her cook instead of becoming panic stricken gave her assistance.

is of even more consequence to his wife and children; for it is a hard and cruel fact that in this life of ours the sins of the man are often visited most heavily upon those whose welfare should be his one special care.

For the drunkard, for the man who loses his job because he can not control or will not control his desire for liquor and for vicious pleasure, we have a feeling of anger and contempt mixed with our pity; but for his unfortunate wife and little ones we feel only pity, and that of the deepest and tenderest kind.

Everything possible should be done to encourage the growth of that spirit of self-respect, self-reliance, which if it only grows enough is certain to make all those in whom it shows itself move steadily upward toward the highest standard of American citizenship. It is a proud and responsible privilege to be citizens of this great self-governing nation; and each of us needs to keep steadily before his eyes the fact that he is wholly unfit to take part in the work of governing others unless he can first govern himself. He must stand up manfully for his own rights; he must respect the rights of others; he must obey the law, and he must try to live up to those rules of righteousness which are above and behind all laws.

Applies to All. This applies just as much to the man of great wealth as to the man of small means; to the capitalist as to the wage-worker. And as one practical point, let me urge that in the event of any difficulty, especially if it is what is known as a labor trouble, both sides show themselves willing to meet, to treat the other reasonably and fairly, each to look at the other's side of the case and to do to the other justice. If only this course could be generally followed, the chance of industrial disaster would be minimized.

Now, my friends, I want to read you an extract from a letter I have just received from a Catholic priest whom I know well and whom I know to be as staunch a friend of the laboring man as there is to be found in this country. Now and then—not too often—it is a good thing for all of us to hear what is not perhaps altogether

No Unnecessary Risk to be Taken By Marine Hospital Service.

DEATH RATE IN NEW ORLEANS STILL REMAINS LOW, ALTHOUGH 68 NEW CASES WERE REPORTED YESTERDAY—PLENTY OF MONEY TO FIGHT DISEASE.

By Associated Press.

New Orleans, Aug. 10.—The official report to 6 o'clock this evening is as follows: New cases 68; total cases to date 747. Deaths to-day 5; total deaths to date 124. New sub-foci 21; total sub-foci 151. Cases under treatment 286.

New Orleans, Aug. 10.—That no unnecessary risk may be taken it was announced to-day by Surgeon White, of the Marine Hospital Service and Father Scott that the funeral of Archbishop Chappell on Saturday morning will be private. Dr. White said that while it was accepted that yellow fever could not be transmitted by a corpse, he considered there were elements of danger in gathering to the Cathedral an immense assemblage from all parts of the city. The Cathedral is located within the originally infected district and near the French market; and there has been fever on all sides of it.

A solemn requiem mass was said in honor of the dead prelate to-day. The services lasted two hours, with a large attendance, principally of people residing below Canal street. Thirty priests participated and the church was profusely decorated in white, purple and black. Many viewed the remains through glass, the metallic covering being removed.

With the death rate remaining lower than in previous epidemics, the hopeful feeling continues. The fever has lasted long enough to have assumed a virulent type, but appears less malignant than at first. However, physicians realize that two months yet remain in which the disease may have to be combated and are unwilling to express opinions now as to the extent that it may reach.

Both the Texas and Louisiana governments are amenable to reason, and the federal authorities hope will assist any wanting to get away.

The city council to-day authorized Mayor Behrman to borrow sixty thousand dollars to assist in meeting the present emergency. Though not the entire \$250,000 required by the federal government has been raised, all the money is available that can be used for a long time.

None at Hattiesburg. Mobile, Ala., Aug. 10.—A telegram from the mayor of Hattiesburg, Miss., announces that as a result of investigation by the Marine Hospital surgeons there is no yellow fever there.

Not Yellow Fever. New Orleans, Aug. 10.—A careful investigation by the Marine Hospital Service shows that the suspicious cases at Lake Providence, La., and Hattiesburg, Miss., are not yellow fever.

HALF MILLION DOLLAR LAND PURCHASE

J. R. Saunders and Associates Buy 75,000 Acres of J. A. Chaffin & Co.

A big land deal which has been under consideration for some time was consummated in Pensacola yesterday when J. R. Saunders purchased for himself and associates 75,000 acres of timber lands from J. A. Chaffin & Co.

The consideration for this immense tract of land was about half a million dollars. The land lies mostly in Santa Rosa county, though a part of it is in Walton county. The timber on it is what is known as round, or unboxed, timber, never having been turpentine. The purchasers of this tract are J. R. Saunders, H. L. Covington, C. M. Covington, and a number of Georgia gentlemen. They will be incorporated as the Yellow Pine Land Co., and will proceed at once to develop their holdings for naval stores products.

SHIP AMERICA CRUSHED IN THE ICE

Thirty-Seven Members of Fiala Polar Expedition Rescued in the Arctic.

SEVERED FROM COMMUNICATION WITH OUTSIDE WORLD SINCE 1903—SCIENTIFIC PART OF EXPEDITION CARRIED OUT AS PLANNED.

By Associated Press.

Honningsvag, Norway, Aug. 10.—The Arctic steamer Terra Nova rescued Anthony Fiala and all but one of the others connected with the Fiala Polar expedition. The ship America, which took the expedition, was crushed in the ice in the winter of 1903 and lost with a large part of the provisions and coal.

Thirty-seven members of the expedition were rescued, all in good health in spite of the prolonged imprisonment in Arctic having been severed from all communication with the outside world since July, 1903.

Anthony Fiala, leader of the expedition, said: "The rescue is most timely. Three attempts to reach a high latitude failed, but the scientific part of the work was successfully carried out as planned."

ROOF OF TUNNEL UNDER RIVER GAVE WAY

Twenty-Two Men Narrowly Escape Drowning in New North River Tube.

By Associated Press.

New York, Aug. 10.—Under pressure of the weight of the North river, the roof of the northerly tube of the twin tunnels, being bored from Fifteenth street, Jersey City, to Morton street, Manhattan, partly gave way yesterday and twenty-two men at work behind the boring shield narrowly escaped drowning. One man lost his life, having been crushed by the shield, stunned and drowned.

Nineteen of the workmen took fright when the water began to trickle down upon them and fled toward the gate of the air lock. Three retained their presence of mind and plunged the break in the roof. When they finished their work they were hip deep in water.

Work on the southern tube of the tunnel was finished last fall. The northern bore had been carried to within 200 yards of the New York shore when yesterday's leak began. The three men who remained plugged the hole with bags filled with sawdust, which are always kept near the shield for that purpose. The pressure of compressed air was increased and it held the bags of sawdust against the opening until planks and timbers could be placed in position.

Will Christen Battleship.

Chicago, Aug. 10.—Governor Edward Hoch, of Kansas, accompanied by his wife and daughter, Miss Anna Hoch, passed through Chicago last night en route to Philadelphia, where Miss Hoch will christen the new battleship Kansas when it is launched.

WILLIAMS INDICTED FOR MURDER IN FIRST DEGREE

JAPANESE SUBMIT TERMS TO RUSSIA

NEW ORDINANCE SIGNED BY MAYOR

Granting Two Railroad Companies the Right to Enter the City.

After a conference of some duration with prominent business men and members of the city council committee, Mayor Bliss yesterday affixed his signature to the two new railroad ordinances recently passed by the city council, and both are now effective.

This action was not taken, however, by the mayor, until after he had expressed himself upon the matters, and had the views of prominent men upon the same. A meeting was held yesterday morning in the rooms of the Chamber of Commerce. It was assembled at the request of the mayor, who wished to obtain opinions from men interested in the welfare of the city, and also to give them his views. It was organized by the election of the mayor as chairman and Secretary Jones of the Chamber of Commerce, as clerk.

The mayor stated that in his opinion the city's interests were not properly protected under the ordinances that had been passed, and that he favored some changes and placing the measures back before the council upon second reading. He favored the elimination of Section 9 and also did not regard the deeds to property as being good. He stated, however, that he did not wish to appear as an obstructionist, and that he desired more railroads here as well as others, and believed it to be for the benefit of the city to secure them.

A number of prominent business men who were in attendance presented their views, and the mayor after hearing opinions from a number of the most prominent attorneys of the city to the effect that the city's interests were properly protected, stated that he would affix his signature to the measures.

These grant to the promoters of what are commonly known as the Pensacola and Memphis and the Pensacola and Andalusia roads the right to enter the city.

Immediately after the meeting the mayor signed the two ordinances, the two different pens used for the same being secured by Wm. H. Knowles and A. H. Alemberte, both of which are suitably engraved and will be kept as souvenirs.

HANDSOME NEW VESSEL IS NOW IN PORT

The Nakomis, Owned By Pensacola Parties, is Here to Receive Cargo.

The handsome schooner Nakomis, owned by Pensacola parties, is in port, and is preparing to commence loading a cargo of lumber for Cuban ports. The vessel, which was purchased over a year since is owned by John Christie, and Arthur and Thomas Johnson.

The Nakomis reached port during the latter portion of last week, and came over to the city to commence taking on her cargo. She is a vessel capable of carrying about 350,000 superficial feet of lumber, and has a net tonnage of 245.

She was purchased in New York, and this is her first visit to the home port, as she has been engaged in other trade since becoming the property of local men.

The owners, decided, when the schooner reached here to make a change in masters, and upon her arrival Captain Boddam was placed in command. He is an old and experienced mariner and will carry the schooner out on her next voyage.

CONDITIONS UPON WHICH PEACE WILL BE DECLARED HANDLED TO M. WITTE.

RUSSIAN PLENIPOTENTIARIES IMMEDIATELY COMMUNICATE WITH HOME GOVERNMENT. FAVORABLE ISSUE OF CONFERENCE EXPECTED.

By Associated Press.

Portsmouth, N. H., Aug. 10.—To-day's conference of the peace plenipotentiaries ended at twelve forty-five. Official statements on behalf of both sides showed that the question of the powers of the commissioners had been settled once and for all. After this the Japanese plenipotentiaries handed the Russian representatives the conditions of peace in writing, in duplicate, French and Russian. Baron Komura handed the documents to M. Witte who placed them in his inside pocket and the meeting immediately adjourned.

It is understood the Russians will devote necessary time to studying the situation and will make reply in writing. This will be done as soon as possible and in the meantime no sessions will be held.

M. Witte retired after lunch to the private offices and began preparing messages to his government in cipher embodying the conditions presented by Baron Komura, which were cabled this afternoon to Russia and will be transmitted to the emperor. M. Witte also put into cipher his own comments on the character of the conditions and his views on what action should be taken.

FAVORABLE ISSUE OF CONFERENCE EXPECTED.

Portsmouth, Aug. 10.—The Associated Press is able to announce that the entire spirit of the discussion to-day among the peace commissioners was such as greatly to strengthen the hope of a favorable issue of the conference.

Baron Komura made the interesting statement that Japan is anxious for an abiding peace and in advance of the actual delivery of terms, assured M. Witte and Baron Rosen that the Japanese terms would be moderate and such as he hoped could be accepted as a basis of negotiation. M. Witte replied with the greatest earnestness, joining in the hope that a lasting peace would be arranged.

WILL END IN A PEACE TREATY

Portsmouth, N. H., Aug. 10.—Kijiro Takasugi, professor of English, at the imperial university of Tokio, in an interview following a lengthy conference with Mr. Sato, who has been the spokesman so far for the Japanese commission, said that Japan's terms, in his opinion, would include the immediate evacuation of Manchuria, the cession of the island of Shakhain and an indemnity of \$1,000,000. Vladivostok also will be demanded. The indemnity, Mr. Takasugi says, might be reduced if peace can't be brought about in any other way.

Mr. Takasugi said: "The Portsmouth conference will end in a treaty of peace."

RAILROAD WILL NOT ARBITRATE

St. Paul, Aug. 10.—There will be no arbitration of the telegraphers' strike against the Great Northern Railway. This was finally decided to-day by General Superintendent Slade, who said so far as the railroad was concerned, the strike was a closed incident.

President J. J. Hill, to whom the matter was referred, said: "We have absolutely nothing to arbitrate with men who go out without notice."

Mistrial Ordered in the Sanford Murder Case

By Associated Press. Rome, Ga., Aug. 10.—At noon to-day, having been in the jury box for ten days and six days in the jury room, the jury in the case in which Vincent T. Sanford is charged with the murder of George Wright, advised the court that it could not agree.

An order was made by Judge Wright declaring a mistrial and the

Will Be Brought Into Court this Morning to Face the Charges.

TWO TRUE BILLS

Promptly Returned After Examination of Witnesses.

NO INTIMATION AS YET REGARDING POSSIBLE LINE OF DEFENSE, BUT MOTION FOR CONTINUANCE IS EXPECTED—LABORS OF GRAND JURY WILL BE CONFINED TO CAPITAL OFFENSES.

William F. Williams, arrested some weeks ago for shooting John White and Edward C. Dansby, causing the death of both, was indicted by the grand jury yesterday afternoon, when two true bills were presented to the court, both charging Williams with murder in the first degree. These indictments were presented to the court shortly before 6 o'clock, when the jury filed into the court room and made the presentations. Williams will be brought into court this morning to hear the indictments against him read.

The special term, which was convened Wednesday, commenced to get down to business early yesterday morning. The venire drawn was called, and about twenty-two of thirty names drawn, were present. From this number the court selected the following to act as a grand jury: L. A. Dubuison, J. W. Boyett, W. M. Falk, W. F. Brown, A. T. Fillingim, H. Dixon, J. A. Gilmore, Rinaldo Ailmon, J. E. Brosnahan, J. E. Pugh, Jas. Cravey, J. L. Freeman, John Bradshaw, W. H. Connors, Henry Chalker, A. D. Morrison, J. M. Milstead and Walker Anderson. After the jury had been empaneled, the members retired, where they organized by the selection of Angus D. Morrison as foreman and Walker Anderson as secretary.

The jury then returned to the court room and announced their organization, when Judge Carter delivered his charge. It was a lengthy one, and covered all cases explicitly. He told the jury of their duties in certain cases and the procedure according to law in the examining of witnesses and making returns. In the charge the judge took occasion to recommend to the jury that their labors be confined to capital offenses, as there existed in Escambia county a criminal court of record, which had jurisdiction lesser crimes.

Examination of Witnesses.

After hearing the charge of the court the jury retired, but it was then late in the day, and no witnesses were examined until the afternoon session convened. Subpoenas had been issued, however, for witnesses who saw the killing of John White and Ed. Dansby, and these were present during the afternoon. State Solicitor Kehoe was in attendance upon the sessions of the jury and assisted in the examination of witnesses. All of the witnesses, eight in number, who were examined, were heard in regard to the double murder, in which it was charged that William F. Williams was the murderer. The testimony of the last witness was concluded about 5 o'clock, and thirty minutes afterwards the jury filed into the court room, and after roll call, Foreman Morrison presented two indictments. These were against

William F. Williams, and charged him with the murder of John White and Edward C. Dansby. These were placed in the hands of the court, who ordered that the counsel for the defendant be notified of the fact. Judge Reeves, of Maxwell & Reeves, appeared shortly afterwards, and while the indictments were not read in open court, the counsel was presented with a copy of the same. State's Attorney Kehoe and C. M. Jones, representing the prosecution, were present to look after the interest of the state should any motions be

(Continued on Fifth Page.)

Morgan Anxious to Get Rid of that Chinese Railroad

By Associated Press. New York, Aug. 10.—Speculation concerning the future control of the Rockwell and Canton railway and the concessions for further construction to be owned by the China-American Development Company were set at rest to-day by the positive statement made in well-informed quarters, according to the Herald, that J. P. Morgan & Co. are continuing their negotiations for the sale of the property and concessions to the Chinese. It was learned further that the offer to the control of the China-American Development Company, made by va-

rious European syndicates are not being considered by the Morgan firm. From a financial point of view, several of these offers are understood to have been very tempting. At the present time, however, the negotiations for the sale of the property have become closely intertwined with diplomacy. While a large banking profit will likely be sacrificed by the sale of the concessions and railroad to the Chinese, it is asserted that the majority interest is acting with a view to promoting better and more cordial relations between this country and China than now exist and at the same time eliminate some of the friction.
